MOBILE APP DEVELOPMENT :

Our team at NewZen is technically skilled in developing customizable mobile applications for major mobile operating systems. The application gives the ability needed to meet the changing demands and manage secure access to mobile data and services.

FEATURES :

Individual & combined Mobile application development Personal Accounting solution for Android OS Can be integrated with all applications that require mobile related functionality. Alerts on important information in the application such as dates, new entries and goals.

SOFTWARE MAINTENANCE & SUPPORT :

“I was extremely impressed with the way Newzen took on the project, cut through the technical issues, and solved the myriad of problems along the way, big and small. Through the project, You Never Made Your Problem My Problem. This gave me the luxury of focusing on the business issues and opportunities.”

A tech support team can come to the aid of the software developers here. This is especially true for a software product in commercial use and used by many end users.
